Ultra Morphs – FACE AND BODY MORPH KIT couldn't be easier to use. The simplest way to use the face and body shapes is from the content tab. All you need to do is load any one of the faces and any of the bodies and you are all set. You will be able to choose from the 30 face shapes and the 30 body shapes that are included in the **FACE AND BODY MORPH KIT**.

You can find all the face and body shapes in the Content tab by clicking on your Genesis 8 Female figure. Open up the 'Shapes' tab then the 'Ultra Morphs' tab. This will then show you the Bodies and Faces tabs. Just double click on any face and any body to start creating new characters.

The most creative way to use the **FACE AND BODY MORPH KIT** is to load up your Genesis 8 Female figure in to your scene and use the provided face dials that you will find in the 'Parameters' tab of the G8F figure. Just open the 'Actor' drop-down on the figure and scroll down to 'People' and open that. There you will find a new category called '**FACE AND BODY MORPH KIT**'. Open the 'Faces' tab and you will find 30 new dials added to your G8F figure. Adjust the sliders of any dial to see the face appear on the G8F figure. You can mix these dials in increments of your own choice to create your own custom faces. You can also mix them with any other Daz morph or character that you have installed on your G8F figure. This will give you an endless array of characters that you can add to your figure creating totally original looks.
