

Le Roi Simulation Instructions

Preferred Method:

Timeline

- Load the Simulation Setting provided with the package.
- Load Genesis 8 Male
- Open the Timeline and set the total frames to 41
- Move to Frame 30 and pose him using your favourite pose, make sure the pose of your choice is dForce friendly.
- Go back to Frame 0 and load !Le Roi ALL

Pants, Shirt and Waistcoat:

- Hide the Coat and its buttons (Ctrl Click on the Coat, click on the eye icon next to it and it will hide the Coat and buttons) and the Jabot
- Start the simulation
- Once finished, select the Pants, Shirt and Waistcoat, go to Parameters/General/Simulation and make sure you turn the Freeze Simulation On

Coat

- Unhide the Coat (Ctrl Click again on the Coat, click on the eye again and it will bring it back to the scene)
- Start the simulation
- Once finished, select the Coat, go to Parameters/General/Simulation and make sure you turn the Freeze Simulation On

Jabot

- Unhide the Jabot
- Start the simulation
- After you are done, and this is optional, select the Jabot, and you might want to apply the morph that says PanelsInflate, that will bring back fluffiness to the fabric that can be lost due to gravity.
- And.... that's it

Enjoy it!
