Medieval Barmaid Simulation Instructions

Preferred Method:

Timeline

- Open the Timeline and set the total frames to 41
- On Frame 1, load Genesis 8 Female
- Move to Frame 30 and pose him using your favourite pose, make sure the pose of your choice is dForce friendly
- Go back to Frame 1 and load !Medieval Barmaid ALL
- Select the Simulation Settings provided with the package.

Blouse and Skirt:

- Hide the Overskirt, leave the rest shown, since they don't affect each other during the simulation
- Start the simulation
- Once finished, select the Blouse and Skirt, go to Parameters/General/Simulation and make sure you turn the Freeze Simulation On

Overskirt

- Un-hide the Overskirt
- Start the simulation
- And..... that's it, now you can load your scene props and lights and ready to render your scene
